

2025 JMC Racing Special Saloons & Modsports Series Regulations

JMC
RACING

A series of races for Special Saloons, Super Saloons, Thundersaloons, Modified Saloons & Modsports racing cars that 'could' have raced pre-1994.

- Typically, a 20-minute qualifying session and 2 x 15 minute sprint races, on the same day.
- **New class structure for 2025.**
- 10 place grid penalty in the second race for the overall winner of the first race.
- Register the car for the 2025 season for £99 (each driver joins the club as a member for £49 for 12 months) and then enter individual rounds when they open, (around 8 to 10 weeks before the event). Your £99 Special Saloons & Modsports registration fee includes registration to any other CSCC series/championship that this car is eligible for, free of charge. If you wish to register a second car for any eligible series, it is ~~also~~ £50.
- Entries may be for either single drivers, two drivers sharing a single car or **a two-car team.**

Classes:

Class HC: The fastest cars of any capacity, likely to out-perform those in other classes

Class A: Over 3600cc (over 4500cc for cars with steel-bodies/chassis)

Class B: 2501cc - 3600cc (3101cc - 4500cc for cars with steel-bodies/chassis)

Class C: 1901cc - 2500cc (2301cc - 3100cc for cars with steel-bodies/chassis)

Class D: 1401cc - 1900cc (1601cc - 2300cc for cars with steel-bodies/chassis)

Class E: Up to 1400cc (up to 1600cc for cars with steel-bodies/chassis)

Pre-1988, 8- valve engines fitted with forced induction will have a cc weighting of x1.4, all other forced induction engines will have a cc weighting of x1.7, as per Motorsport UK NCR. Naturally-aspirated Rotary engines will have a cc weighting of x1.7, whilst turbo Rotary engines will have a cc weighting of x2.5.

Note that the CSCC reserve the right to re-classify cars between classes at any time, based on likely and actual performance. Cars will be placed in class HC at the discretion of the CSCC Office and Series Representatives.

Only 'period' models/vehicles manufactured up to the end of 1993 that could have raced in Special Saloons, Super Saloons, Thundersaloons & Modsports will be considered. Special permission may be granted, in writing, to certain Donington GT, Special GT, **SHP RSR**, or Marque Sports models. New build cars are welcome, but must be 'period' and constructed only with 'period' parts and technology.

Engines ~~may be~~ from any age car or motorbike may be used. Note that this series is not for modern vehicles with a period bodyshell.

Bodywork and Chassis

Cars are to be visually based on cars produced for road use and retaining the silhouette as seen in the side elevation and must remain unaltered above the road wheel hub centres of the original production car at normal ride height, except for engine/boot cover, boot lid/rear deck. Space framed cars are eligible. The material of the bodywork may be changed as long as the original structural strength and shape is maintained. On rear-engined cars, the engine, engine cover and ancillaries must not extend above the level of the bottom of the rear window of the original car at its centre point. On front-engined cars, the engine, engine cover and its ancillaries must not be more than 15cm above the highest point of the original bonnet.

A front spoiler is permitted if positioned entirely below the wheel centres and if it does not exceed the width of the car across the front wheel arches and its length does not extend beyond the original bodywork by more than 30 cm.

Rear spoilers are permitted within the overall plan periphery of the engine cover/luggage compartment lid. A spoiler is a raised surface of opaque material integral with the rear deck with no gaps or openings in the surface, front or rear, and not exceeding in height half the vertical height of the original rear window fitted to the vehicle, measured at the centre of the original window. Rear aerofoils can have a maximum length (front edge to back edge) 20% of the wheelbase, must not exceed the width of the car measured across the rear wheel arches and the overhang must not extend beyond the original bodywork by more than 40cm. Height must not exceed the maximum height of the roof.

Oil coolers or water radiators are not permitted outside the bodywork.

Headlights may be removed but the aperture must be covered. Windscreens must be the same height and width as that of the original vehicle.

All cars must have a minimum ride height of 40mm with the driver seated completely to one side of the centre line of the vehicle. Wheelbase must be as original manufacturer's, plus or minus 2 inches.

Onboard cameras are highly recommended.

Decals

All cars must display the correct stickers, these will need to be collected from the CSCC at the circuit and applied to the car before the race. Failure to display these decals when issued may result in the car failing at scrutineering or the loss of an award. A sticker guide is available on the series webpage: <https://www.classicsportscarclub.co.uk/special-saloons-and-modsports>

Engine and Transmission

Any engine originally fitted to a motor car and motorbike will be eligible, including derivative engine blocks. Forced induction is allowed on car engines, but not motorbike engines.

Front-engined cars: The rear of the gearbox housing (not including the tail shaft or gear lever mechanism) must not pass beyond the centre-point of the original wheelbase dimension. However, the use of a transaxle in a front-engined RWD car is permitted, but the rear face of the engine block must remain no closer than 450mm from the centre-point of the original wheelbase dimension.

Rear-engined cars: The most forward casting of the mounted engine must not pass beyond the centre-point of the original wheelbase dimension.

Cars with 4WD are NOT allowed. Clutch systems and differential must be mechanical with LSD allowed. Sequential gearboxes are eligible **and some automatic gearboxes may be permitted on an individual basis.** Paddle-change systems can only be mechanically operated by way of cables or rods, NOT electronically.

Flatshift, blipper-systems, traction-control, wheel-speed sensors and aftermarket/non standard ABS are NOT permitted. Engine management/ECU is free but must have all features mentioned in the previous sentence disabled.

Wheels and Tyres

Wheels and tyres are free.

Two Driver Entries

Entries may be either one car with one or two drivers or a two car team. The CSCC welcomes two driver/2 car teams as a way for drivers to share the experience and the entry fee. Both drivers are required to be members of the Classic Sports Car Club. Each driver must complete at least three laps in qualifying, with only one car on circuit at any time. Each driver may take part in one race each. The driver competing in the 2nd race will start the race from the finishing position of the 1st race.

Overseas rounds

In order to race with the CSCC at an overseas round, drivers are required to race with us **twice** beforehand this season. Overseas rounds are not subject to winners' penalties. Cars could be subject to additional safety requirements.

Pit Stop and Starts

Most JMC Racing Special Saloons & Modsports races do not involve a pit-stop, but they are required when two drivers share a qualifying session, or at longer pit-stop races. See here for driver change and pit stop regulations: <https://www.classicsportscarclub.co.uk/regulations>
All cars must have a method of determining that they are travelling at 60kph. Starts will be rolling, as set out within each meeting's Supplementary Regulations.

Winner's penalty

The outright winner of race one (car and/or driver) will start the second race at that meeting, ten places further back on the grid. No penalties are carried over to the next meeting; therefore, the winner of the final race of the day will not serve a penalty. The CSCC reserves the right to amend or remove the winner's penalty throughout the season.

Additional Regulations

These series regulations are to be applied in conjunction with Motorsport UK safety regulations contained within the **2025 NCR**.

Awards

Awards are given ~~at~~ **for** each race: - Overall Winner ~~of the race~~, 1st in Class, 2nd in Class with 4 starters, and 3rd in Class with 7 starters. Award winners receive a single award per entry.

CSCC Series Infringements

Each CSCC penalty, issued by the MSUK Clerks, should be considered a starting point; consideration will be given to any aggravating or mitigating factors. It may be appropriate to either increase or decrease these penalties, such as if an unfair advantage has been gained. The MSUK Clerks may issue any combination of time penalty, 1 or more lap penalty, stop-go or drive-through, in addition to **Ch. 2 App. 2 Art.1**.

A driver disqualification or exclusion in the case of a 2 driver/2 car team, will result in the loss of that drivers laps only, with no award for the team. The purpose of these Series penalties is to help enforce safety and sporting fairness.

During qualifying, any of the below series infringements will result in a minimum of a loss of fastest lap.

*Minimum datum penalties during a race

Excess speed in pit lane	60 Seconds
Unsecured harness belts before coming to a stop	60 Seconds
Not switching off the engine for driver change (where relevant)	60 Seconds
Not closing car door, single driver (where relevant)	10 seconds
Unsafe release or impeding a car during pit stop	30 Seconds
Incorrect/Short pit stop duration/Pitting outside pit window	30 Seconds + short stop duration
Not stopping for the mandatory pit stop	Disqualification from the race
Yellow Flag Penalty (In addition to MSUK Clerks Penalty)	30 Seconds
Excess speed under Code 60	20 Seconds + excess kph ² as seconds.

Other Infringements:

As per **Ch 2 App. 12 Art. 1.4** and **Ch. 12 App. 10 Art. 2** the Clerks may issue drive through and stop-go penalties, in addition to those within **Ch. 2. App. 2, Art. 1**

Technical Rights of the CSCC

The CSCC have the right to overrule any of the above rules, including moving a car between classes and/or treat any applicant individually as seen fit, in order to help promote and to enhance the series, and to protect and respect the position of all existing competitors. The CSCC also reserves the right to re-classify any car entered in a meeting that does not comply with the series technical regulations or is not prepared to an acceptable standard. The Club reserves the right to amend these regulations at any time in the year.
